1. List a specific and distinct topic of your website here

Custom computers

- a. Provide text (as it would appear on a web page) of who is important or necessary for clients to know in this website topic you listed above

Who is yerfdogcomputing? With over twenty-five years in the industry, our team of technicians have the experience to build you the computer you need. Need a high-end gaming machine? We have you covered. Need a workstation or simple home computer? We have you covered there as well. Either way, a custom pc designed by yerfdog will be a perfect fit.

- b. Provide text (as it would appear on a web page) of what information needs to be given to the client in this website topic you listed above

Building a custom pc from scratch is an art, an art that we take very serious at yerfdog. By building a custom pc we can cater to your exact needs. Why go to a box store and buy a machine that is missing a component you would like when we can build around that one component if necessary. Custom pcs are better tools for the job you need, at a lower cost.

- c. Provide text (as it would appear on a web page) of where can the client get or do the information in this website topic you listed above

If you are interested in any further information, we suggest reading more about the advantages of custom computers.
